Math: Math K-12

Explanatory Notes

^ These values for weeks of instruction are the median across your schools and are used in all calculations except the Student Norms section, which uses the values from each student's school of record.

** Calculations not provided because students have no MAP results in at least one of the terms. The Growth Count is zero.

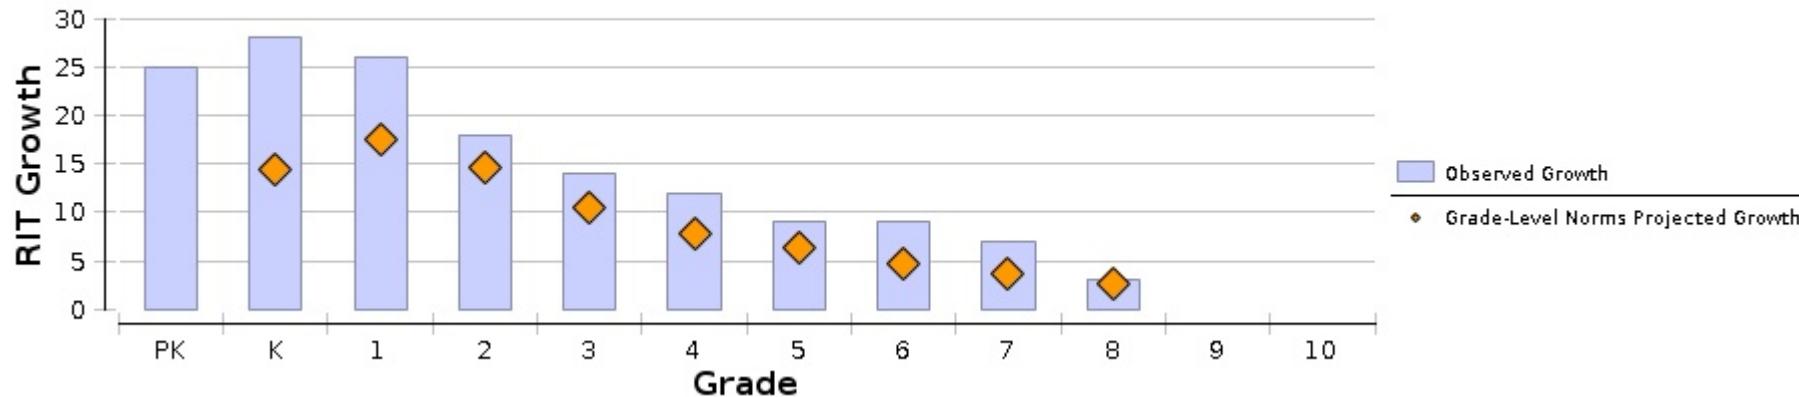

‡Growth Count provided reflects students with MAP results in both the Start and End terms. Observed Growth calculation is based on that student data.
